

AWA LTD. DNA TYPING SCHEME

GENETIC SOLUTIONS

The AWA Ltd. DNA Typing Scheme is a **non-compulsory** initiative of the Australian Wagyu Association, implemented to offer AWA members a discounted rate for DNA typing and parent verification at the Genetic Solutions Laboratory.

The scheme requires that authorisation stickers be purchased from the AWA to accompany each sample tested at the lab. Each sticker costs **\$25.00** (incl. GST) and entitles the member to DNA typing and parent verification of one hair sample.

To partake in the scheme, members should follow these steps:

1. Obtain the number of authorisation stickers needed (equivalent to the number of samples you are submitted for testing) from the AWA. To order stickers, you can obtain an order form from the AWA via post, email or fax.
2. Submit your order for authorisation stickers to the AWA via post or fax. Your payment of \$25.00 (incl. GST) per sticker should accompany your order.

Note: Stickers will not be issued until payment has been received by the AWA.

3. Obtain an AWA Ltd. DNA Typing Application Form to accompany samples being submitted to the lab. One application form has the capacity to include details on up to 20 animals. Application forms will automatically be posted with authorisation stickers but may also be obtained from the AWA via post, email, or fax.
4. Upon receipt of your authorisation sticker/sample collectors and application form, please use a single sample collector per animal with a hair sample for testing. Samples should then be submitted directly to the DNA typing laboratory in the standard manner.
5. DNA typing and parent verification results received at the Association will be issued to the relevant member via email following notification from the lab.

IMPORTANT NOTES

- At this stage, the AWA Ltd. DNA Typing Scheme only applies to testing of hair samples.
- If a full DNA type is unable to resolve parentage, the organisation and payment for additional tests must be coordinated directly with the DNA typing lab.
- All necessary communication with the DNA typing laboratory should be carried out directly.
- An AWA authorisation sticker **must** accompany each hair sample for it to be included in the scheme. Failure to provide stickers will result in the sample(s) being held over without testing, until the necessary number of stickers is provided to the DNA typing lab.
- DNA profile of each parent **must** be provided by the Member before testing proceeds. If parental profiling is required, then it is at the breeder's expense to seek and provide such information to GS.

TERMS AND CONDITIONS:

The Member acknowledges that the enclosed Samples are submitted to Catapult Genetics by the Society in accordance with and subject to the terms of a separate Fee for Services Agreement between Catapult Genetics and the Society ("**Agreement**").

All Samples submitted by the Association to Catapult Genetics remain the property of the Member. Catapult Genetics will store all Samples, at the Society's risk, for a period of 12 months from the date they are submitted to Catapult Genetics. The Member acknowledges and agrees that Catapult Genetics at all times has the right to use the Samples in any way for the purposes of conducting research, product development and commercialisation, and will own all results and outcomes (including all Intellectual Property in such results and outcomes) and benefits arising out of such research, development and commercialisation.

Catapult Genetics at all times retains a perpetual, non-exclusive, royalty-free right to use all material created by Catapult Genetics in providing the testing and related services to the Society under the Agreement including the individual animal GeneSTAR genotypes ("**Created Material**") and all Intellectual Property rights in the Created Material for such research, development and commercialisation purposes as it sees fit.

Catapult Genetics will not be liable for any consequential, special, indirect liability, loss, damage, cost or expense (including, without limitation, any loss of profit, loss of revenue, loss or corruption of data, loss of any anticipated or expected revenue or profits, economic loss of any kind and loss of goodwill) suffered by the Member in connection with this Test Request Form or the test and related services provided in connection with it.

All GeneSTAR and SireTRACE test results will be provided directly to the Society by Catapult Genetics.

Please sign below to confirm the Member's agreement to the terms and conditions of this Test Request Form.
